

# TrustBus '18

## Call for Papers

15<sup>th</sup> International Conference on  
**TRUST, PRIVACY AND SECURITY  
IN DIGITAL BUSINESS**  
(TrustBus'18)

in conjunction with the

**29th International Conference on Database and  
Expert Systems Applications (DEXA 2018)**

Regensburg, Germany  
5 - 6 September 2018

## GOALS AND TOPICS OF INTEREST

New computing paradigms, such as cloud computing, big data and the Internet of Things open new horizons to businesses by making possible the provision of high quality services all over the world. All these developments ultimately aim at improving our quality of life, at making it easier to generate wealth, and at ensuring that businesses remain competitive in the global marketplace.

These developments have been made possible in a remarkably short time span, by virtue of the fact that information and communication technologies move fast; sometimes they move too fast for society and for governments. This explains why such rapid technological evolutions cannot be problem-free. In the domain of digital businesses, concerns are raised regarding the lack of trust in electronic procedures and the extent to which information security and user privacy can be ensured.

In answer to these concerns, the *15<sup>th</sup> International Conference on Trust, Privacy and Security in Digital Business (TrustBus'18)* will provide an international forum for researchers and practitioners to exchange information regarding advancements in the state of the art and practice of trust and privacy in digital business.

TrustBus'18 will bring together researchers from different disciplines, developers, and users all interested in the critical success factors of digital business systems. We are interested in papers, work-in-progress reports, and industrial experiences describing advances in all areas of digital business applications related to trust and privacy, including, but not limited to:

- Anonymity and pseudonymity
- Common practices, legal and regulatory issues in digital business
- Delivery technologies and scheduling protocols
- Economics of information systems security and privacy
- Enterprise management and consumer protection
- Intellectual property and digital rights management
- Languages for description of services and contracts
- Models for access control and authentication
- Cryptographic building-blocks for e-business applications
- Business architectures and underlying infrastructures
- Design of business models with security requirements
- Electronic cash, wallets and pay-per-view systems
- Security, privacy and trust in e-services
- Cloud computing security and privacy
- Identity management, identity theft and trust management
- Information audit and trust
- Trust and reputation in digital business environments
- Security and privacy in cyber physical systems
- Methodologies for privacy by design and by default
- Methodologies for privacy impact assessment
- Privacy and Security Patterns
- Security and privacy governance and management
- Intrusion detection and information filtering
- Online transaction processing

- PKI & PMI
- Security of P2P transactions and scenarios
- Security, privacy and trust in real-time Internet e-Services
- Reliability and security of content and data
- Reputation in services provision
- Secure process integration and management
- Reliable auction, e-procurement and negotiation technology
- Transactional Models
- Security, privacy and trust in mobile commerce environments
- Usability of security and privacy technologies and services
- Security and privacy models for pervasive information systems
- Shopping, trading, and contract management tools
- Security and privacy policies
- Multi-factor authentication schemes
- Accountability, Transparency and Intervenability
- Security and privacy in big data processing
- Security and privacy of mobile applications

## **SUBMISSION DETAILS**

Authors are invited to submit original papers not previously published nor submitted in parallel for publication to any other conference, workshop or journal. Papers should be limited to 15 pages of 11pt type including title page, figures and bibliography. To submit a paper to TrustBus'2018 please use the DEXA Conf Driver Conference Management System (<https://confdriver.ifs.tuwien.ac.at/dexa2018/>).

Accepted papers will be included in the Conference proceedings, to be published by Springer in their LNCS series. Camera-ready versions of the papers should not exceed 15 pages and must comply with the "Authors Instructions" that can be found at: <http://www.springer.de/comp/lncs/authors.html>

For further inquiries, please contact one of the Program Committee chairs at [H.Mouratidis@brighton.ac.uk](mailto:H.Mouratidis@brighton.ac.uk) or [S.Furnell@plymouth.ac.uk](mailto:S.Furnell@plymouth.ac.uk)

### **Important dates:**

- Submission deadline:            March 18, 2018
- Notification to authors:        May 23, 2018
- Camera-ready version:        June 13, 2018

## General Chair

Günther Pernul University of Regensburg (Germany)

## Program Committee co-Chairs

Haralambos Mouratidis University of Brighton (UK)

Steven Furnell University of Plymouth (UK)

## Program Committee Members

George Aggelinos	University of Piraeus (Greece)
Esma Aimeur	University of Montreal (Canada)
Nieto Ana	University of Malaga (Spain)
Rudolph Carsten	Monash University (Australia)
David Chadwick	University of Kent (UK)
Cheng-Kang Chu	Huawei International (Singapore)
Nathan Clarke	University of Plymouth (UK)
Frederic Cuppens	ENST Bretagne (France)
Josep Domingo-Ferrer	Universitat Rovira i Virgili (Spain)
Prokopios Drogkaris	University of the Aegean (Greece)
Eduardo B. Fernandez	Florida Atlantic University (US)
Simone Fischer-Huebner	Karlstad University (Sweden)
